SUMMARY

Engineering intelligent software at the intersection of full-stack development and artificial intelligence, with hands-on experience in both Django and the MERN stack. Passionate about designing scalable backend architectures, developing secure RESTful APIs, and integrating AI into modern web platforms. Driven by computational thinking, clean system design, and a commitment to building reliable, efficient, and future-ready software.

WORK EXPERIENCE

Intern – Digital & Field Operations | Mira-Bhayandar Municipal Corporation

Swachh Survekshan Programme

March 2023 - Feb 2024

- On the digital front, I managed official communication channels, developed awareness campaigns using Canva and Figma.
- Focused on structured documentation, digital reporting, and visual storytelling to enhance public engagement.
- Analyzed solid waste management workflows and participated in structured field data collection with the Ward Sanitary Inspector to identify sanitation vulnerability points based on official evaluation metrics.
- Worked on the operational and digital aspects of urban sanitation governance.

TECHNICAL SKILLS

Frameworks	MERN Stack , Django
Polyglot Dev	JavaScript , Python ,Golang , Core Java .
Web Technologies	HTML5, CSS3, Tailwind CSS
Databases & APIs	MongoDB, PostgreSQL, SQL , AI Integration , REST APIs .
Core CS	Object-Oriented Programming , Data Structures & Algorithms
Tools	Docker, Git/GitHub , Vercel , Excel, Canva
Soft Skills	Technical Documentation, Team Collaboration, Problem-Solving

PROJECTS

Portfolio

The newest iteration of my personal website. Built with Vite and React 19, leveraging Material UI v6 and GitHub grain API integration.

May-2026

AI Resume Analyzer & Interview Preparation Platform

Developed a full-stack AI platform for resume and job description analysis, skill gap detection, personalized interview preparation, and ATS-optimized resume generation. Implemented JWT authentication with token blacklisting, resume parsing, skill extraction, Gemini AI integration, and dynamic PDF generation using Puppeteer.

November-2025

Rail-Sathi

developed a ticket booking application inspired by the UTS . The application allows users to register, log in securely, search for routes, book tickets, and view their booking history. The project follows a MERN architecture with RESTful APIs and JWT-based authentication

February-2026

EDUCATION

Bachelor of Science in Computer Science

Shankar Narayan College | CGPA: 6.76/10

June 2022 - April 2025

HSC (Science Stream)

St. Joseph Jr. College | Percentage: 74.33%

June 2019 - April 2021

SSC

Adarsh Vidya Mandir | Percentage: 64.80%

March-2019

CERTIFICATES

Full-Stack Web Development & Java Programming

SDAC Mumbai | CRN: E3CAGCNB

2024-2025
